

School Philosophy

Every child deserves a strong start – the best chance for a successful future. Early adverse life experiences, like growing up in disadvantaged communities and poor families, carry life-long consequences for children and their socio-economic attainment as adults. Education is a key moderator, and a child's best chance to escape the cycle of poverty.

Since its establishment, Bala Mandir has been committed to ensuring that all children – regardless of gender, ethnicity, socioeconomic background or circumstance – realise their right to a quality education.

Our schools cater not only to our institutional children but also to children from the low-income, urban-slum community that we serve.

All our schools have always strived to maintain best practices in education to ensure optimal learning outcomes for our children. These include continuous teacher training and professional development, a balanced and integrated curriculum, activity-based learning, inclusion and learning support.
